### PROJECTS

|                                                                                                                                                                                                                             |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Enterprise ATM Interface System</b>   Java, OOP, Data Structures, GitHub                                                                                                                                                 |
| <ul style="list-style-type: none"><li>Architected a console-based ATM simulation with deposit, withdrawal, and fund transfer using advanced Java, secure transaction processing, and robust input validation.</li></ul>     |
| <b>Trivia With Seven Game Application</b>   Java, OOP, Software Design, GitHub                                                                                                                                              |
| <ul style="list-style-type: none"><li>Developed a two-player trivia app featuring seven knowledge categories, dynamic Q&amp;A logic, and score tracking using OOP principles for modular, maintainable code.</li></ul>      |
| <b>Web Development Portfolio</b>   HTML5, CSS3, JavaScript, React.js, GitHub                                                                                                                                                |
| <ul style="list-style-type: none"><li>Built 6+ responsive web apps including a To-Do List (Vanilla JS), Registration Form with data validation, and a React-based user management system across 15+ repositories.</li></ul> |

### TECHNICAL SKILLS

**Front-End Technologies:** HTML5, CSS3, Bootstrap 5, Tailwind CSS, React.js, JavaScript (ES6+), Responsive Web Design  
**Programming Languages:** Java, JavaScript, SQL, C  
**Back-End & Frameworks:** Spring Boot, Hibernate, JDBC  
**Database Systems:** MySQL  
**Dev Practices:** Agile, SDLC, REST API Integration, Component Architecture, Code Reviews, Testing & Debugging, Git/GitHub

### CERTIFICATIONS & TRAINING

- Microsoft Certified: Azure AI Fundamentals – Microsoft (Cloud Computing & AI/ML)
- CCNA: Introduction to Networks – Cisco (Networking & Security)
- Cloud Computing – NPTEL, IIT (2023)
- Introduction to Machine Learning – Coursera / Kaggle (2023)
- Database Management Systems – NPTEL, IIT (2023)
- Python Programming Bootcamp – Basics for Absolute Beginners
